-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1754

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 4,13,15,16,17,21,23,24,26,29-32,36,38,40,41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 4, there are two occurrences of "and" in the Markush grouping which renders the claim indefinite.

In claim 13, "said step of isolating" lack(s) proper antecedent basis in the claim(s) as the word "step" was not previously recited.

In claim 15, "a sulfate-containing compound is added" is indefinite as to what it is added to.

In claim 16, line 2, "the first liquid phase of claim 14" is indefinite as to which this refers to, the one in d, e or g.

In claim 16, it is indefinite as to how this claim fits into or further limits claim 14 from which it depends since it would appear that step f in claim 14 would then be rendered moot or inconsequential.

In claim 17, it is indefinite as to how this claim fits into or further limits claim 14 from which it depends via claim 16 since it would appear that step f in claim 14 would then be rendered moot or inconsequential.

In claim 21, there are two occurrences of "and" in the Markush grouping which renders the claim indefinite.

Art Unit: 1754

In claim 23, "the liquid slurry" lack(s) proper antecedent basis in the claim(s). It appears that – first slurry stream – was intended.

In claim 24, "50%" and "80%" are indefinite as to what the units of this % are, ie. is it weight %, volume % or something else?

In claim 26, "said residual liquid" lack(s) proper antecedent basis in the claim(s).

In claims 29,30,32, "adding a sulfate-containing compound" is indefinite as to what it is added to.

In claim 31, line 3, "said second solution of claim 28" is indefinite as to which one this refers to, b or e.

In claim 36, there are three occurrences of "and" in the Markush grouping which renders the claim indefinite.

In claim 38, "the liquid slurry" lack(s) proper antecedent basis in the claim(s). It appears that – liquid slurry stream – was intended.

In claim 40, "said residual liquid" lack(s) proper antecedent basis in the claim(s).

In claim 41, "said step of isolating" lack(s) proper antecedent basis in the claim(s).

In claim 41, "said residual liquid phase" lack(s) proper antecedent basis in the claim(s).

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

Art Unit: 1754

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 42 is rejected under 35 U.S.C. 102(b) as being anticipated by Katamoto '378. See examples 1-6.

Claims 1-41 appear allowable over the cited prior art of record none of which teaches or suggests the instantly claimed combination of process steps.
